Here is the final draft. The quote has been approved. I included the first of MDEQ's suggested edits, but not the others.

Thank you, Cynthia!

Do you know if the press release has been revised since the 11/20 version?

Joe

Hi, Joe.

The AOC has been delivered to Martin Hestmark for signature. As soon as we hear it is signed, we will begin a coordinated announcement process that starts with congressionals and then concurrent press releases from EPA and CFAC (probably about an hour after the congressionals are notified). We will then send out an announcements and/or call other stakeholders. Mike has been in communication with Tom Stoops at the state and will follow up with him once the AOC is signed.

Hi, Everyone:

I was wondering if you have any updates on the status of the Anaconda Aluminum Columbia Falls (CFAC) AOC. The communication strategy, press release, and hot topic were all from the week before last (Nov. 20). I received a call from Jenny Chambers today inquiring about the status. She said that Tom Stoops had provided some comments on our draft press release, but that she had not yet seen a revised version. Do you know what the current status is for our signature of the AOC and the release of information? Jenny mentioned that the governor's office is asking, too.

Thank you!

Joe
